

## **HI Remote Scribe**

CCT's remote scribes work offsite to capture patient visits and update e-health visits as soon as they are completed, reduce provider workload, assist during after-hours charting, and boost revenue.

## **AI Editing**

CCT refines AI-generated clinical documentation to meet the necessary high standards of quality and accuracy. Frees providers from critical errors.

## **Transcription Services**

CCT's US-based medical language specialists transform dictated audio into accurate, professional, usable documentation. its seasoned teams strive to match your needs.
